

3M™ Trizact™ Abrasives

3M™ Hookit™ Trizact™ Fine Finishing Foam Discs reduce the amount of time spent on paint polishing. By adding this innovative product to our range, we have reinvented the process for fresh paint rectification, delivering better results and helping bodyshops improve both cycle time and customer satisfaction.

- Cleaner, faster, more efficient
- Pyramid structure.
- Reduced process time.
- Consistent finish and durable gloss after polish, which can help reduce dieback and returns.
- Consistent, uniform and reproducible finish.
- Extended life.
- Foam support provides control and consistent contact with the painted surface.

3M™ Trizact™ Abrasives are available as 75 mm & 150 mm discs.

- ▶ Consistent Swirl-Free Finish
- ▶ Avoid Burn Through and Rework
- ▶ Designed For All Skill Levels

The 3M™ Perfect-It™ Random Orbital System – a professional-grade set of tools, pads and polishes – typically used in detailing shops, re-engineered for the collision repair industry. An unconventional, but welcomed change in process that allows you to get that show room shine, as if the car had never been touched. It's paint finishing redefined.

- ▶ Formula designed for high cutting power with great gloss results
 - ▶ Great for use on all collision repair paints
 - ▶ Get a fast, customer-perfect finish
- Use the 3M™ Perfect-It™ Rotary Colour Coded System to obtain a high gloss, defect free surface for more cured, higher cross-linked clearcoats. The products are designed to complement each other, and our colour coding system ensures that you use the correct liquid with its corresponding foam pad for best results.

Refinishing. Redefined.

High cutting power.
